

New England Waste

SKIP BIN INFO

ESSENTIAL INFORMATION

*Thank you for ordering a skip bin with New England Waste.
Here is some essential information to help you out*

TIPS FOR PACKING YOUR SKIP

- *Start by separating out your items into categories - wood, metal, household, bulky and flat*
- *Break up bulky items. If possible chainsaw items into smaller pieces, remove the legs off furniture or deconstruct items so they can be laid flat*
- *Big bulky items placed at the bottom of your skip will waste space, so breaking up items ensures no air pockets. If you do have air pockets, search for smaller or soft items that can be wedged in.*
- *Place heavier items at the bottom of the skip to distribute weight well*
- *Make sure your waste does not exceed the top of the skip*

RESTRICTED ITEMS

- *Mattresses, Tyres and Whitegoods are an additional \$40 per item*
- *Asbestos MUST be pre-communicated and arranged at time of booking as there are specific ways this must be disposed of*
- *Used paint, fire extinguishers and oil waste not permitted*

HOW TO BOOK COLLECTION

- *Hires are typically for a 7 day period.*
- *If you would like to book your collection for earlier or later please email customerservice@newenglandwaste.com.au or call 0429 323 696 and we will try our best to accommodate*
